

Pirate Light

This brew is smooth, golden, and has fewer calories.

Color: Golden / Gravity: 1.040 / Alcohol: 3.7% / Bittering: 17

Subchaser Hefe-Weizen

Hefe-weizen is brewed with wheat and pilsner malts, then fermented with a weinstephen yeast for a fruity, banana-clove character.

Color: Ruddy Orange / Alcohol: 4.3% Bittering: 20

Hop Goblin IPA

Perfect for the fall season. Caramel, and sweet oak were surrounded, engulfed, and beaten down by the hops. I also loved the fact that there was no bitterness, or at least very little bitterness in the end.

Color: Light copper/amber color / Alcohol: 7.3% / Bittering: 68
