Hutchinson Cup Regatta

Traffic Pattern-Safety Instructions-Penalties

In the interest of safety and fairness we ask you to make note of the following:

1. Racing lanes take you through the second or third arches of bridges. At the Start look for lane number 3 on the Strawberry Mansion Bridge. Use the orange buoys as a guide. Do not race downstream through other arches; this is a traffic pattern violation and you will hit upstream traffic.

2. On those portions of the course that are straight, a crew being overtaken shall move to the right and allow the overtaking crew to pass. Where the course turns, the crew being overtaken shall move to the outside of the turn and allow the overtaking crew to pass along the shorter path.

A crew is deemed to be overtaking another crew, if it moves to within one boat length of the crew ahead. The crew being overtaken must yield, if they can safely do so.

3. Do not pass at bridges or if otherwise unsafe to do so – this is a safety violation subject to penalty.

4. Follow the published traffic pattern and do not cross the racecourse unless directed by a marshal or referee.

5. Penalty for:

- **Late to the Start Line – All boats are responsible for being in the marshal area, ready to row, at least 5 minutes prior to the scheduled event time. Once an event has started no boats from previous events will be permitted to start and they will not be timed down the course. Late crews will have to wait at the top of the river until they are directed by a race official to proceed safely down the course to return to their launching dock.**
- **Failure to Yield – 60 second penalty or possible exclusion for extended or repeated violations.**
- **Interference, Violation of the Traffic Pattern, or Safety Violation – May include; reprimand, warning, exclusion or disqualification.**

Referees will be alert for traffic pattern violations, interference with other crews and crews late to the Start Line. Race hard and have a safe regatta.

Thank you, Regatta Officials

Hutchinson Cup Regatta Waiver Registration Instructions

Masters Turning Stake Races

Men's and Women's 1X

Men's and Women's 2X

Mixed 2X

In the classic style of the Biglin Brothers and rowers of old, the Turning the Stake Races require all competitors to turn around two buoyed stakes.

The race will begin at the Starting line, the Viking statue, traveling up river (West River Drive side, opposite Boathouse Row). The Turning Stakes will be positioned before the Girard Avenue bridge (first bridge going up river). Competitors will do a U Turn around two Stakes. Once the competitors' boat and oars have gone completely around both stakes, each boat will follow a down river course (Kelly Drive/Boathouse Row side) to the Finish line (which is the same as the Starting line) at the Viking statue.

Each boat is timed. Timing begins when each boat crosses the Start line and will stop when each boat has crossed the Finish line. The course is approximately 500m up and 500m back for a round trip total of approximately 1000m. Boats will be sent off in a time trial/head race fashion with approximately 10 second breaks between boats.
