RACE DETAILS

Newport Sea Base Rowing is excited to announce this year's newest regatta, the EMPIRE SPRINTS. Named after the Inland Empire of Southern California, the EMPIRE SPRINTS regatta will be held on Lake Perris, rowing site of the 2028 Olympics. With the cooperation of the California State Park system, the City of Perris and the members of Newport Sea Base Rowing, we are excited to open up a new 2000 meter race course in the USRowing Southwest region, in addition to offering a regatta to serve the needs of the junior and Masters rowing communities. Lake Perris is a beautiful location, surrounded by desert hills with plenty of sunshine.

The beach area has TONS of room for everything. The launching chutes will be to the left, recovery to the right, all closer to the dam. Again, there is plenty of room for boats and movement. There are gazebos and grassy areas up above the beach for team areas. And---we have received State Park permission to allow spectators to ride bicycles along the paved road atop the dam. Yes, bring your bikes, and pedal along with the race! There aren't many race courses like that on the West Coast!

If you have any questions about LAND RELATED issues (trailer parking, bus / car parking, tents, bathrooms, BBQ's, waivers, etc., contact Michelle Green directly at: rowing@seabaserowing.org

We look forward hosting this event, seeing all of you there, and having some great racing on the newest course in the SW region! It is an exciting development for our region, and the sport of rowing in California.
