Penalties

BRIDGE VIOLATIONS

Passing under any bridge improperly will result in a 30-second penalty in addition to any buoy violation penalties incurred by doing so.

ROWING UP TO THE START

Boats will row to the start line, north along the waterway's west bank (to the coxswain's left, scullers right). Boats rowing to the start will at all times stay in the up lane. The up lane is the western most lane, clearly divided on the waterway by large orange buoys (the port side of the course looking North and the west bank). Passing another boat in the up lane to the start line is permitted except when under bridges. Boats in transit to the start may also be charged a penalty for crossing the buoys into the race course.

DURING THE RACE

Faster crews have the right-of-way in safe passing zones of the course, therefore all slower crews MUST yield to faster crews; failure to do so may result in a penalty or disqualification at the discretion of the judges. All coaches and athletes must familiarize themselves with the course to identify safe passing zones.

CREWS THAT ARE BEING PASSED MUST YIELD TO THE OVERTAKING CREW BY MOVING TO THE EAST SIDE OF THE COURSE AS LONG AS IT IS SAFE TO DO SO. PASSING CREWS SHOULD USE THE WEST SIDE OF THE COURSE TO PASS (CENTRE OF THE WATERWAY).

Passing is permitted along the entire race course EXCEPT FOR THE AREA BETWEEN THE MAIN AND DIVISION ST BRIDGES. Passing another boat should only be done if necessary. If a crew passes another boat in the no-pass zone, their action may result in exclusion.

BUOY VIOLATIONS

Any racing boat crossing the buoys (with any part of the hull of the boat, but not the oars) will be charged a penalty of 10 seconds per crossing.

FINISH

All boats must finish between the finish line buoys, and any boat finishing outside the buoys will be charged a 20 second penalty.

INTERFERENCE

Any boat which, without justification, interferes with the forward progress of another boat, or which unreasonably fails to yield to an overtaking boat will be charged a one-minute time penalty or be excluded, at the discretion of the officials.

THE COURSE

The race course for the Head of the Welland presents an exciting challenge to experienced and novice competitors alike, with excellent opportunities for passing and coxswaining to be in a position to win. With its gentle bends and string of five bridges, the 3-mile (5.2 km) course, navigated through buoys, boats and bridges is a fantastic trip. At the Head of the Welland, every stroke is critical and one wide pass or buoy violation could cost a crew a medal and a club valuable points.

RACES FOR RECREATIONAL ROWERS AND U15 WILL BE 3KM, STARTING JUST SOUTH OF THE DIVISION ST. BRIDGE.

South Niagara Rowing Club 2018 HEAD OF THE WELLAND FIVE BRIDGES FALL CLASSIC Regatta Package

Race Course Description

The Race Course begins just north of the old Thorold Road Boat Launch (end of Thorold Rd) and starts with a 1.5 km open water stretch. It then proceeds through 5 (five) bridges through the heart of the City of Welland to the Finish Line on the North Course of the Welland International Flatwater Centre.

BRIDGE 1 Main St. Bridge, There is only one way to pass under the bridge, under the main span.

BRIDGE 2, the Division St. Bridge, is just 150 m away. There are 2 alternate passages under this bridge within the buoyed course and either passage may be used when one passage appears congested. Please follow the traffic signs posted on each bridge. The Bridge's East Shore is out of bounds (as navigation is too tight).

After this bridge is a potential hazard from a stage located by the east shore, then about 700 meters of open water.

BRIDGE 3, the Lincoln St. Bridge has 2 alternate passages under this bridge within the buoyed course and either passage may be used.

BRIDGE 4, Railway Swing Bridge. There is only one way to pass under the bridge, under the left span.

BRIDGE 5, Broadway Bridge. There are 2 alternate passages under this bridge within the buoyed course and either passage may be used when one passage appears congested. Please follow the traffic signs posted on each bridge.

The waterway then immediately enters the North Course of the WIFC and competitors have approximately 1.2 km remaining to make their move!

See Regatta Central for Diagrams of Race Course and Bridge Navigation.

Passing under any bridge improperly will result in a 30-second penalty in addition to any buoy violation penalties incurred by doing so.

The Race Course is bounded by a continuous line of orange buoys to the right (west side, middle of waterway) of the coxswain and an intermittent line of yellow buoys on the coxswain's left, marking diversions away from the shoreline. Where there are no buoys, the shoreline of the waterway is the left side boundary of the course.

All coxswains in the club events and coxswains who have never before raced in the regatta are strongly advised to attend the Coxswains' and Coaches' meeting at 7:30 am in the Office area.

Bridge Traffic Diagrams are available in the appendices and online at the Head of the Welland Website, headofthewelland.ca, as well as course mapping and coxswain notes.

Bow and Back Numbers

Bow and back numbers will be distributed at registration in the race packet. Bow numbers must be returned at the conclusion of racing to the Regatta Office. **All bow numbers from a club must be returned in the original envelope at one time.** A charge of \$10.00 will be assessed if the bow numbers are not returned. All shells must have bow lips to race. Back numbers must be worn on the back of the bow rower.

MASTERS ROWERS/CREWS MAY PICK UP AND RETURN BOW AND BACK MARKERS SEPARATELY IF THEY NOTIFY THE REGATTA CHAIR IN ADVANCE.

South Niagara Rowing Club 2018 HEAD OF THE WELLAND FIVE BRIDGES FALL CLASSIC Regatta Package

Start

Directions for proceeding to the start will be announced at the meeting for coaches/coxswains/scullers at 8:00 am in the Launch Dock area. Bridges will be clearly marked and Bridge Diagrams and Course Maps clearly layout the up lane versus racing lane. The Start Line itself is marked by two buoys (one orange and one white). There is a 100m start queue. Please enter the start queue on time, following the directions of the Marshall at the Start, and in numerical bow order.

Approach the start line from within the queue and power up so you will be at full speed when you are signaled with a "GO" from the Starter.

Safety Boats

Safety boats will be stationed throughout the course and in particular will be stationed at all bridges. If for any reason, a boat needs to stop, **move immediately to the closest shore.**

Launching

Launch/return docks are located along the first 1000m of up lane. Wet launching is possible, but we encourage you to use the docks. There will be 3 docks designated as launch, and 3 for return. Boats should launch **1 hour before the start time** of their event giving them plenty of time to warm up and make their way to the start. Please be aware that water levels do change slowly throughout the day so ensure discretion is used when wet launching.

Adaptive Rowers

Launching at the start area may be arranged for Adaptive Rowers but must be pre-arranged through the Regatta Chair.

Crew Conduct

A) Boats will row to the start line, north along the waterway's west bank (to the coxswain's left, scullers right). Boats rowing to the start will at all times stay in the up lane. The up lane is the western most lane, clearly divided on the waterway by large orange buoys (the port side of the course looking North and the west bank). Passing another boat in the up lane to the start line is permitted except when under bridges.

B) CREWS THAT ARE BEING PASSED MUST YIELD TO THE OVERTAKING CREW BY MOVING TO THE EAST SIDE OF THE COURSE AS LONG AS IT IS SAFE TO DO SO. PASSING CREWS SHOULD USE THE WEST SIDE OF THE COURSE TO PASS (CENTRE OF THE WATERWAY).

Passing is permitted along the entire race course EXCEPT FOR THE AREA BETWEEN THE FIRST AND SECOND BRIDGES. Passing another boat should only be done if necessary. If a crew passes another boat in the no-pass zone, their action may result in exclusion. **PASSING UNDER BRIDGES MAY RESULT IN DAMAGE TO BOATS/OARS. DO SO AT YOUR OWN RISK.** See Course Map.

C) Any racing boat crossing the buoys (with any part of the hull of the boat, but not the oars) will be charged a penalty of 10 seconds per crossing. All boats must finish between the finish line buoys, and any boat finishing outside the buoys will be charged a 20 second penalty. Boats in transit to the start may also be charged a 60 second penalty for crossing the buoys into the race course.

D) Any boat which, without justification, interferes with the forward progress of another boat, or which unreasonably fails to yield to an overtaking boat will be charged a one-minute time penalty or be excluded, at the discretion of the officials.

E) After crossing the finish line, a shell must be prepared to move into the return lane immediately. The shell may then proceed to enter the return/up lane and enter the cool down area. The Marshall at the Finish will insist that crews quickly make their way into the return lane. Coxies and shells are to pay full attention to the Marshall at the Finish to avoid interfering with crews coming to the Finish. Shells shall return to the launch and recovery docks, single file, up the return/up lane (west side bank) (on the coxes left, scullers right).
