All competitors must have a USRowing waiver (can be done on Regatta Central online). Competitors under age 18 must have a parent or guardian's signature (again to be done online). All races are finals. Events with more than 20 entrants will be run in flights. The fastest overall time from these flights will determine the event champion. No heats will be run.

All races will be held on Concept 2 Model D ergs. Concept 2 provides the electronic timing system used for this satellite regatta. Racers and spectators can watch their performance on a screen during all races. Competitors may set their ergometer to the fan setting of their choice, but may not alter these settings after the race has started.

The race organizers reserve the right to:

- ◆ Change the tentative schedule of events.
- ◆ Combine events that have less than 20 registered participants.
- ◆ Limit the number of events or flights.
- ◆ Suspend the use of the Concept 2 electronic timing system and replace it with a manually timed system.
- ◆ Adjust final race time and schedule based on total number of athletes entered.
- ◆ Accelerate the schedule of events by up to 15 minutes.

Check In

All competitors or coaches must check-in at the registration desk prior to their event. Competitors should plan to be at the Kingsley Association at least 1½ hours before their scheduled race.

Lightweight Weigh-Ins

All weigh-ins must be completed at least one hour before the scheduled event. Weigh-in opens at 6:30 am and closes at 1:00 pm. Rowers not meeting the lightweight requirement will be allowed to row and their time will be considered in the open weight event of the same category.

Warm-up and Race Preparation Information

A fleet of ergs will be available for warm-ups. They will be separate from the racing ergs. Please come to the on-deck area properly warmed up and ready to race. Please limit your warm-up to a maximum of 15 minutes in order to give everyone a chance to warm up. Rowers should not plan to use the ergs designated for racing to warm up on as time may not permit this. Rowers may set the drag (fan setting) and the heel height of their assigned racing ergometer.

On Deck (Mandatory Pre-Race Instructions)

Competitors must allow sufficient time to weigh-in (if lightweight), warm-up and be in the on-deck area at least ten (10) minutes before their event. Failure to be in this area five (5) minutes before the start of your race may

- result in competitors missing important last minute information
- result in not being able to compete

Safety

A city paramedic will be set up to deal with on-site emergencies. They will be in the main competition area. Anyone who feels ill or thinks they may need EMS attention should go to the paramedic. Coaches are asked to be mindful about the following:

- ◆ **Athletes who are fighting a flu or a cold should not compete**
- ◆ **Athletes should eat two or three hours before competing, but generally not less than two hours before competing**
- ◆ **Athletes should stay hydrated, but do not forget to eat!**

RELAY RULES

Overview

The erg relay race is offered to Indoor Sprints participants as a chance to win bragging rights for their school or organization. This race is offered without cost to the teams.

Erg relay teams are made up of 3 male and 3 female participants (and one coxswain). This group must represent a single high school, college, club, or corporate organization. An organization may enter up to three separate teams. The one exception is if a program is all girls or all boys, they may team up with a club of the opposite sex to make up a full team.

Composite entries are allowed, as are teams with an unequal number of male and female participants, but these teams are ineligible for championship plaques.

Rules of Racing for Relay

The erg relay race will follow the established erg race championship format, with the following obvious exceptions:

- Each participant will race 500 meters for a total of 3000 meters.
- Each team may choose the order of participants.
- The lead off rower begins seated on the machine.
- Each rower must complete his or her 500 meter piece before the next teammate may approach the handle.
- When finished with the 500 meters each rower must secure the handle against the machine, or hand the handle to the next rower directly.
- ONLY THIS TEAMMATE may touch, pull, or advance the handle during his or her allotted 500 meter section.
- The coxswain may sit or stand alongside the rower, and offer any strategy or encouragement, but may not otherwise assist, except to secure the foot stretchers of the transitioning athletes.
- Teammates may hold onto the rower's feet, but may not touch the handle.

TEAMS THAT VIOLATE ANY OF THESE SPECIALIZED RULES FORFEIT THEIR ELIGIBILITY FOR THEIR RESPECTIVE CHAMPIONSHIP.
