Victim Care

Whoever initiates initial contact with someone needing First Aid should remain with the victim whenever possible. If the victim has been pulled out of the water, the safety boat team is responsible to ensure the victim receives First Aid care by either using a radio to call First Aid to meet you at dock or by escorting the victim to the Primary First Aid Location. Under no circumstances will the victim be left alone. If an individual brings themselves alone to the First Aid location every effort will be made to locate a coach, guardian or suitable adult to be with them.
