**Protests:**

- There will be no protests considered for broken equipment. Once the crews enter the starting chute, they accept the start as is. If there are problems with equipment, please direct your coxswains/crews to ask the race officials for help. There will be limited boat parts (nuts, bolts, oarlocks, oar collars and wrenches) available at the starting area.

**Racing Highlights and Basic Rules:**

- Eligibility: This is a USRowing event so while all rowing clubs are invited to participate, rowing clubs must be organizational members of USRowing and unaffiliated rowers must have an individual membership to USRowing.
- All USRowing rules for head races will apply. These include: safety equipment, bowballs, shoe heel ties, sealed decks, boats and oars in good working order.
- All equipment must comply with USRowing safety guidelines including, but not limited to, firmly affixed bowballs, intact shoe heel ties, sealed bow and stern deck compartments.
- Coaches should not plan to use any rowers/equipment in events that are less than 90 minutes apart.
- Boats launch from the UA docks by the dam and row to the starting line immediately south of Hayden Run bridge. No boats are to row

North of the Hayden Road Bridge. There will be Marshals to direct your crews.

- Boats must have their appropriate bow marker secured on their shell. A penalty of 30 seconds may be assessed for a missing bow marker.
- Passing is done at the risk of the overtaking crew. However, if a crew is within 1 length and is closing on the crew ahead of them, the crew being overtaken should yield so the overtaking crew is not impeded in its opportunity to pass. Since 2 opposing crews start simultaneously and there are about 30 seconds between starts, there is less opportunity to pass than in many head races. There are crews nearby to “race” against but the clock is the standard you will be judged by.
