

2007 Oklahoma City University Head of the Oklahoma REGISTRATION INFORMATION Oklahoma River, October 13-14

EVENT OVERVIEW

The 2007 Oklahoma Centennial Regatta Festival will celebrate Oklahoma's 100th year of statehood October 11-14 on the Oklahoma River. The Regatta Festival will include two premier events, the first USA Rowing World Challenge and the Oklahoma City University Head of the Oklahoma, as well as live music and entertainment, food from some of Oklahoma City's finest restaurants, an art show, wine tasting featuring Oklahoma vineyards, a children's area complete with inflatables and activities, plus fireworks each evening at the conclusion of racing. The Regatta Festival will close with athletes joining Oklahomans in celebrating our state's 100th anniversary at the Oklahoma Centennial Parade on October 14.

HEAD OF THE OKLAHOMA

Presented by Oklahoma City University, the Head of the Oklahoma has quickly become one of the top collegiate rowing regattas in the country. The 2007 OCU Head of the Oklahoma will attract an estimated 1500 athletes from 40+ collegiate and community rowing clubs, with top crews including the US National Team. Collegiate teams will compete in the 2.5 mile Head of the Oklahoma head race on Saturday. The head race will also act as a qualifier for crews to enter select 500 meter NightSprints on Saturday evening.

OG+E NIGHTSPRINTS

The 2006 OCU Head of the Oklahoma Centennial Regatta will go down in the history books as the first sanctioned night race in North America. Thousands of spectators lined the banks of the Oklahoma River as world-class rowers from across the nation sprinted under giant stadium lights. The OG&E NightSprints introduced a breathtaking new way to experience rowing in a fresh and dynamic way. The response from the spectators, athletes and the media made it clear that the OG&E NightSprints was a truly unique and monumental event in itself. This October, lights will again be raised over the Oklahoma River to illuminate this one-of-a-kind event. But this year, the OG&E NightSprints will not only include student athletes from around the country, but elite athletes from around the world. OG&E will power the river for three full nights of intense night racing as a fireworks display concludes each day of rowing.

USA Rowing World Challenge

We encourage all teams to join us for the inaugural USA Rowing World Challenge with 2000 meter racing 11 am to 1:00 pm on Friday. The World Challenge 500 meter NightSprints will be held Friday evening, immediately following the Opening Ceremonies at 6:00 pm. Finals for World Challenge 2000 meter racing will be at 12:30 pm (women's) and 6:00 pm (men's) on Saturday.

SPECIAL NOTICE REGARDING NCAA RULE 13.11.1.2

The Head of The Oklahoma Regatta has introduced the rule changes listed below to address recent changes to **NCAA Bylaw 13.11.1.2 Competition Against Prospective Student Athletes**.

The Head of the Oklahoma encourages the participation of both college and high school athletes, and has made these changes to allow participation by both groups of athletes while not jeopardizing their ability to compete in future intercollegiate competition. These additions are limited to women's event divisions only because men's rowing is not governed by NCAA Bylaws. The restrictions apply to high school students participating in both school AND club based junior programs.

All high school students are prohibited from participating in all events at the Head of the Oklahoma designated as collegiate events. These include the following and are in addition to the General Entry Rules:

RACE COURSE/ REGATTA RULES

TRAFFIC PATTERN: Please see course map for specific traffic-related information. All rowing will be conducted in a clockwise traffic pattern with racing occurring from east to west (new for '07). Please use caution when passing through the many bridges that cross the course.

LAUNCHING: All participants are expected to launch a minimum of 40 minutes in advance of the event in which they are entered. Any changes to the launch times will be announced. Announcements will be made calling crews to the water and messages will appear on the Jumbotron displays. Events will not be held for late crews. Please ensure your crews are prompt on the dock and observe a 90 second dock time.

CONTROL COMMISSION: All crews are expected to check in at the Control Commission tent prior to launching. The crew will be given direction as to which dock to use for launching and will check for a properly affixed bow ball and heel ties on each shoe. The Control Commission will be located near the Bell Tower in the boat staging area.

BOAT LIGHTING: Regatta staff will provide lights for all boats entered in OG+E NightSprint events. Boats are prohibited from launching without the required lighting. Boat lights will be distributed in the Control Commission tent beginning at 5:00 pm Saturday for qualifying crews. All boat lights must be picked up before night racing begins at 7:00 pm.

RACE BIBS/BOW MARKERS: Race bibs and bow numbers will be contained in your entry packet that should be picked up Friday afternoon or Saturday morning. All waivers must be turned in to receive the packet. All boats must have the bow number displayed during the race and the race bibs should be worn on the back of all bow seat rowers. AT THE CONCLUSION OF YOUR RACE, PLEASE PLACE THE BOW NUMBERS IN THE MARKED RECEPTACLE located near the recovery dock.

HOT SEATING: Hot seating will be permitted only from the specially designated hot seat dock.

2007 Oklahoma City University Head of the Oklahoma REGISTRATION INFORMATION Oklahoma River, October 13-14

The control commission must be informed in advance of a hot seating situation. No events will be delayed for late arriving crews. Late arriving crews may race the course for time if deemed safe by the starting official (will not be eligible for a medal).

STARTING: The starter will arrange the crews so that crews cross the starting line at approximately 15-second intervals. PLEASE HAVE YOUR CREWS LINE UP IN THE ORDER OF YOUR BOW NUMBER PRIOR TO THE START OF EACH RACE. All races will be started in pairs with the odd numbered bow number closest to the south shore (where the starter is located).

RIGHT OF WAY: A crew is deemed to be overtaking another crew when it has moved within one length of open water of the crew ahead. On those portions of the course that are straight, a crew being overtaken shall move to the right to allow the overtaking crew to pass. Where the course turns, a crew being overtaken shall move to the outside turn and allow the overtaking crew to pass along the shorter path. Nevertheless, passing is not allowed, nor is the crew being overtaken required to yield, in cases where the overtaking crew's position clearly prevents safe passage or where there is insufficient room to yield. Use extreme caution near the railroad trestle bridge located just west of the boathouse.

PENALTIES

Buoys- White buoys mark the boundaries of the course, dividing the race lanes from the warm-up/traffic lanes. Red buoys alert of approaching hazards. A crew shall be penalized 10 seconds for each buoy the crew passed incorrectly. A crew passes a buoy incorrectly when any part of its hull passes on the wrong side of the buoy.

Start- A crew that missed the correct order of the start will be penalized 10 seconds.

Yielding- A crew that fails to yield to a crew to a crew having proper right of way shall be penalized 30 seconds. A crew that fails to yield to a crew being properly summoned to the starting area, or interferes with the staging of the start may be penalized 10 seconds by the Marshal or Starter.

Bow Number- A crew that crosses the starting line without its required bow number shall be penalized 60 seconds.
