Saturday, October 16, 2010

The weather played a key role in this year's regatta -- flood levels and debris in the water on October 2nd caused the race to be postponed. Today, temperature was in the low 50's; high, gusty winds picked up in the late morning and the river rose two feet throughout the day. This resulted in numerous records being set for the straight course. We welcomed back the high school and collegiate participants.
